

## ANNEX G.3 EFFECTIVENESS

CHALLENGES ON EFFECTIVENESS OF STRIDE							
Challenges	National n= 6		HEI = 9*		Regional = 5*		Responses
	f	%	f	%	f	%	
Mismatch of competencies and capacity between the academe and the industry. This challenge pertains to differences in the innovation competencies of GI partnerships specifically on mindsets, timeline of institutions, expertise of faculty, and scalability of product after it is developed by academe and industry.	3	50.00	6	66.67	4	80	<p>" From the Planning Office of CHED, some of the challenges in doing industry-innovative research are availability of experts and researchers on HEIs, again this is, capacity. Then connecting the researchers to potential industry partners, and the funding for these kinds of researches. It is time to rationalize all these funding." (CHED).</p> <p>When we say industry-responsive innovative research, to me, the challenges are really with the academe's schedules. They're really busy. I have a problem with my fablabs, I have fablabs in three Cebu Technological Campuses I am pushing them. We have already put in millions of pesos in their equipment, but they have not been providing innovation because they do not have time. I do not have a problem working with the Academe, but they are just very busy. (Region 7-DTI)</p> <p>"The challenge is what we do after. When we presented our product to Monde Nissin, they had it tested, and it met their quality parameters. They get they dehydrated vegetables in China, so they are hoping that there is a local supplier, but they have not been successful. So, they asked us, what's next? The idea of what to do." (XU)</p>
Protection of outputs (patenting/ indigenous knowledge). Protection of knowledge products/technology (patenting and IKSP)	--	--	2	22.22	--	--	"When we engage research with the industry and we have a project that is patentable, the industry wants to have a share of the patent. That is not on our look-out, that is on our KTTO. There are no existing policies. The university wants the patent solely; however, the industry wants to have a share. The industry shared funds and some chemicals." (DLSU)

Unresponsive policies. Policies pertaining to processes of purchasing supplies, equipment, contract services, other services, and financing program	2	33.33	--	--	1	20	"CRADLE for new normal." (DOST)  "Trust, resources and changing of policies – as mentioned above. How flexible are you with the changing policies? I could not say that. There are some orders that come from the central office. What I was mentioning is that if the secretary changes, then it would be a problem." (Region 10-DTI)
Lack of coordination.	1	16.67	--	--	----		"Lack of coordination, adequate funding, electronics roadmap." (MSME)
